Dr. Paul Ayris

Dr. Celia Caulcott

**Professor Mark Emberton** 

Professor Mary Fulbrook

Mr. Andrew Grainger

Professor David Lomas

Professor Ivan Parkin

**Professor Geraint Rees** 

**Professor Anthony Smith** 

updated and potentially re-designed as part of the move to Drupal otherwise we will carry forward poor content of the past and not benefits from the new functionality. However, this will take time given the constrained funding. He stated that investment in this area was increasing from £600k to £1.2M next year and that he would like to complete all website migration by the end of FY 17/18. Prof. Alan Penn noted that faculties and departments will need to at least match ISD's resources with local staff for the successful migration of their website.

Approved:

2.11: The Domain allocation were approved.

#### 3. 17/06/03 Information Security Update (highly restricted)

Noted:

3.1: The Information Security update (paper 17/06/03 highly restricted) was received.

Discussions:

3.2: Restricted

Actions:

3.4: Restricted

# 4. 17/06/04 Paper proposing a comprehensive information security training programme

Noted:

4.1: The paper proposing a comprehensive information security training programme (**paper 17/06/04**) was received.

Discussion:

- 4.2: The Head of Information Security presented the paper, highlighting the need for staff to protect themselves and to be aware of what the risks are e.g. how to use the web safely and to share information. The proposed training has been mandated by the ICO. The proposal is to split the UCL community into groups based on risk and for each group to receive training relative to their level of risk. Completion of training may be linked to existing systems i.e. a requirement to enable password changes to occur.
- 4.3: ISGC discussion centred on ensuring accurate records could be kept of who had received the training, whether the training was accessible, how long the full training and annual refreshers would take and when the training need to be completed by.
- 4.4: Prof. Graham Hart noted that some UCL staff are not in possession of an email account or have access to a computer and that a grace period may be required for new starters to complete.
