

Background

44 (3.4%) only had birth PCR:

- 14 had no follow-up
- 3 died

The risk stratification approach to infant PEP is being applied

Ongoing monitoring of transmissions and clinical practice is required to support implementation of BHIVA guidelines

Funding and governance

UCL are the commissioned data processors for NHS IDPS Programme who are the data controllers and owners. Patient data is collected under legal permissions granted under Regulation 3 of the Health Service (Control of Patient Information) Regulations 2002

Acknowledgements

Many thanks to everyone who reports to ISOSS, the ISOSS team, the CERP members and the IDPS team. Full list of CERP membership on: www.ucl.ac.uk/isoss
The ISOSS Annual Report is available on gov.uk
